

Command

```
graph BT; NegativeCommand --> SnapshotCommand; SnapshotCommand --> Command;
```

The diagram illustrates a class hierarchy with three classes arranged vertically. At the top is the 'Command' class, represented by a white box with a black border. Below it is the 'SnapshotCommand' class, also a white box with a black border. At the bottom is the 'NegativeCommand' class, represented by a gray box with a black border. Two blue arrows point upwards, indicating inheritance: one from 'SnapshotCommand' to 'Command', and another from 'NegativeCommand' to 'SnapshotCommand'.
